

How to Customize the Mockup Template

Step 1

- Open the PSD file in Adobe Photoshop.
- Double click the smart-object layer marked in **RED** on the very top named **"ADD DESIGN HERE"** and add your design and click Save. Your cover designs will automatically be shown on the mockup.

Step 2

- You can replace your own background color at the bottom of the layers. Or add your own background image.
- Once you are done, export the scene and enjoy!
