

## How to Customize the Mockup Templates

### Step 1

- Open the PSD file(s) in Adobe Photoshop.
- Double click the smart-object layer(s) marked in **RED** on the very top “BUSINESS CARD FRONT” and “BUSINESS CARD BACK” and add your design(s) and click Save. Your card designs will automatically be shown on the mockup.

### Step 1

- You can replace your own background color using the “Color Fill” layer at the bottom of the layers. Or add your own background image.
- 
- You can play around with layer effects such as “Color Balance” and “Black & White” options to change the color and mood of the scene until you are satisfied.
- Once you are done, export the scene and enjoy!
