

## How to Customize the Template

### Step 1

- Open the PSD file(s) in Adobe Photoshop.
- Double click the smart-object layer(s) marked in **COLORS** on the very top duly named respectively and add your design and click Save. Your design will automatically be shown on the mockup.

**Double Click &  
Add Your Design**

### Step 2

- You can also change the text color on the scene using the **“CHANGE COLORS”** smart-object layer wherever they are.
- Once you are done, export the scene as JPG, PNG, GIF, etc and enjoy!

*Note: All layers marked in COLORS are editable layers.*
