

## How to Customize the Template

### Step 1

- Open the PSD file(s) in Adobe Photoshop.
- Double click the smart-object layer(s) marked in **COLORS** on the very top duly named respectively and add your design and click Save. Your design will automatically be shown on the mockup.

Double Click &  
Add Your Design

### Step 2

- You can also change the background color using the the **“Color Fill”** layer.
- You can also change the effects and overlays, and brightness and contrast and photo filter. Relevant layers are already provided in the PSD files.
- Once you are done, export the scene as JPG, PNG, GIF, etc and enjoy!

*Note: All layers marked in COLORS are editable layers.*
